

Room for the Turkey?

LET AMITY DESIGN YOUR KITCHEN FOR THIS HOLIDAY SEASON!

Functionality & style combined with space for modern amenities is Amity Construction's philosophy for creating the perfect kitchen for family gatherings and entertaining.

By ED MURPHY

Have you started thawing the Thanksgiving Turkey? Got the Christmas tree up? Been going door-to-door this past week singing Christmas Carols?

If you've been doing any or all of the above, some family member is undoubtedly in the process of reserving a rubber room for you at Santa's Therapeutic Workshop.

But even though it's too early to begin decking the halls, summer is the perfect time to plan to renovate them. Call Amity Construction and Design today, and they'll transform your modest hearth into an epicurean showplace in plenty of time for the holidays.

Don't feel there's any need to act now? Conjure up memories of holidays past, with the image centering on the kitchen – the favorite gathering spot during nearly every holiday get-together. Now ask yourself the following questions:

1 Does your present kitchen have sufficient room for chef, chef's assistants and guests to gather, or do congregating relatives evoke visions of a sardine can?

2 Does the kitchen have an ergonomically correct layout that allows for ease of movement or do you find that dinner preparation requires more bending and stretching than a pilates class?

3 Do you have enough drawer and cabinet space or are your storage areas so over-packed they may someday explode, burying you underneath a mountain of pots, pans, cans, boxes, bottles and utensils?

4 Are your appliances bright, contemporary and energy efficient or are they relics that may actually be steam powered?

5 Are your countertops expressive, eye-catching and inviting or are they worn, scarred and dated eyesores that have all the charm of a bad stretch of I-95?

If your present kitchen falls short in any of these areas, now is precisely the time to call Amity Construction & Design for a free consultation. Bring in your list of gripes and your wish list, and Amity's design staff will take that information and transform it into floorplans and photo quality 3-D

Creating the perfect kitchen is one of our specialties; your ideas can become a reality ... easily & affordably!

Using Amity's 3-D models & renderings you can visualize exactly what your new kitchen space will look like. Exceptional hands-on workmanship is provided until the final cabinet is in place!

renderings, providing you a true image of the finished project. If you have trouble visualizing how this would fit into your house, they'll come to your home and lay out the new arrangement on the floor with tape.

Because custom kitchens are an Amity specialty, the new layout will be a unique combination of style, room and functionality. They'll show you how a new, modern, open floor plan will create ease of movement, and room for family gatherings and entertaining. True to their promise of providing a custom kitchen, none of the cabinets will come out of a box. All of the cabinetry Amity installs is custom built right here in Connecticut, with pieces individually crafted to meet your home's unique requirements.

Often, this new layout fits into the home's current footprint; other times an addition is needed. Amity will work with clients, developing creative solutions that not only meet client needs, but stay within budget.

The key here is Amity's design-build approach, where clients have the advantage of working with a single firm that combines professional design and construction expertise. This joining of functions provides continuity of service and saves clients time and money. Whether it's a subtle renovation, new custom kitchen or space-expanding addition, Amity has the know-how and creativity to take your project from concept designs and permitting through construction and even final decorating – all in time for the holidays.

A builder of homes, additions and commercial space, Amity Construction & Design can help you create the holiday environment of your dreams. For more information or to schedule an appointment, call 860.434.5500. Visit us on the web at www.AmityCD.com.

We have a booth at today's Hamburg Fair; we hope to see you there!
